

Mostafa Oulahyan

Full-Stack Web Developer

Profile Overview

About Me

I am currently a Digital Development student at ISTA NTIC Tangier (OFPPT), passionate about creating modern, high-performance web applications.

I possess a versatile Full Stack Developer profile with strong skills across both front-end (React, Tailwind) and back-end (Node.js, Laravel) technologies.

Education History

2024 - 2026 (In Progress)

Technicien Spécialisé en Développement Digital

ISTA NTIC, Tangier

Focusing on Full-Stack development, mastering web application architecture, and agile methodologies.

June 2024

Baccalauréat (Physical & Chemical Sciences)

Lycée Elbassatine, Tangier

Gained a strong foundation in scientific analysis, logic, and problem-solving skills essential for programming.

Key Participation

Hackathon: World Cup 2030 Services

Solicode, Tangier | April 2024

- ✓ Participated in a high-intensity hackathon focused on "Public Services & Tourism" for the 2030 World Cup.

- ✓ Collaborated with a team to prototype a digital solution enhancing visitor experience through personalized assistance.

- ✓ Developed key skills in rapid prototyping, UI/UX design, and team collaboration under tight deadlines.

- ✓ Successfully pitched the functional concept to a panel of judges.

Technical Skills
